RECYCLING CENTER
GENERAL APPROVAL CONDITIONS
FOR RECEIPT, STORAGE, PROCESSING OR TRANSFER
OF CLASS B RECYCLABLE MATERIALS

Under the provision of N.J.S.A. 13:1E-1 et seq. and N.J.S.A. 13:1E-99.11 et seq., known as the Solid Waste Management Act and the New Jersey Statewide Mandatory Source Separation and Recycling Act, respectively, and pursuant to N.J.A.C. 7:26A-1 et seq., known as the Recycling Regulations, this Approval is hereby issued to:

Robert T. Winzinger, Inc.

MUNICIPALITY:	<u>Franklin Township</u>
BLOCK NO.(S):	<u>2403</u>
LOT NO.(S):	<u>10, 11, 12, 13, and 14</u>
COUNTY:	<u>Gloucester</u>
CAPACITY:	<u>1000 TPD Concrete & Asphalt</u>
	<u>400 TPD Wood</u>
	<u>40 TPD Leaves</u>
RECYCLING CENTER NUMBER:	<u>0805001290</u>
APPROVAL EXPIRATION DATE:	<u>August 11, 2005</u>

This Approval is subject to compliance with all conditions specified herein and all regulations promulgated by the Department of Environmental Protection or as may be amended in the future. All references to specific regulations include any future amendments thereto.

This Approval shall not prejudice any claim the State may have to riparian land, nor does it allow the facility or its principals to

fill or alter, in any way, lands that are deemed to riparian, wetlands, stream encroachment areas or flood plains, or that are with the Coastal Area Facility Review Act (CAFRA) Zone or are subject to the Pinelands Protection Act of 1979, nor shall it allow the discharge of pollutants to waters of this State without prior acquisition of the necessary grants, permits, or approvals from the Department of Environmental Protection.

Compliance with the terms of this Approval does not relieve the facility or its principals of the obligation to comply with all applicable local, State and federal statutes, rules and other permits and municipal approvals or ordinances which are not preempted by the DEP solid waste regulations at N.J.A.C. 7:26-1 et seq. and the recycling regulations at N.J.A.C. 7:26A-1 et seq.

Failure to comply with all the conditions specified herein may result in revocation of this Approval and/or may result in other regulatory or legal actions which the Department is authorized to institute by law.

An Approval renewal shall be obtained from the Department prior to any activities which are to occur after the expiration of this Approval. In applying for a renewal, applicants shall follow the renewal submission requirements and procedures set forth in N.J.A.C. 7:26A-3.6.

This Approval is non-transferable, except as set for in N.J.A.C. 7:26A-3.15.

**Recycling Center General Approval
for
Robert T. Winzinger, Inc.**

A. AUTHORIZED RECYCLABLE MATERIALS

1. Permitted Class B Recyclable Materials

The following source separated Class B recyclable materials which have been separated at the point of generation from other waste materials or separated at a permitted solid waste facility authorized to separate recyclable materials may be received, stored, processed or transferred at this facility:

Asphalt
Concrete
Brick
Block
Porcelain
Wood (Unpainted and non-chemically treated)
Trees (Tree Parts, Brush, and Stumps)
Leaves

At no time shall the receipt, storage, processing or transferring of non-source separated construction and demolition material be allowed at this facility. The prohibition of this material shall be strictly enforced and any incident shall be considered a serious violation to the conditions of this Approval.

2. By-Products

Incidental amounts of rebar, metal, soil and other by-products which adhere to the Class B recyclable materials as specified in Condition A.1 and returned to the economic mainstream as raw material or products may be received, stored, processed or transferred at this facility. Its receipt shall not be separately accounted for but its storage and end-markets shall be subject to specific conditions of this Approval.

3. Contaminants

The maximum amount of contaminants allowed, as defined at N.J.A.C. 7:26A-1.3, in each incoming load of Class B recyclable materials for acceptance shall be limited to 1% by volume.

Incidental by-product materials included within the Class B recyclable materials shall not be considered to be contaminants.

B. DESIGN AND CONSTRUCTION

The construction of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the New Jersey Uniform Construction Code, the approved documents listed below and this Approval.

1. Approved Documents

Site Plan - Prepared by JCA Associates, signed and sealed by David W. Munion, P.E. N.J. License No. 32490, Drawing No. C1, dated January 6, 1995, and last revised June 21, 1995.

Robert T. Winzinger, Inc. - Application for Recycling Center General Approval, prepared and signed by JoAnn Winzinger, Vice President, Robert T. Winzinger, Inc., dated May 17, 1993.

Robert T. Winzinger, Inc. - Response to the August 1, 1994 notice of deficiency, prepared by Audrey Winzinger for Robert T. Winzinger, Inc. dated January 18, 1995.

Robert T. Winzinger, Inc. - Response to the August 1, 1994 notice of deficiency, prepared by Audrey Winzinger of Robert T. Winzinger, Inc., dated April 26, 1995.

Robert T. Winzinger, Inc. - Request for Renewal, signed by Audrey Winzinger, dated June 30, 2000.

C. RECYCLING CENTER OPERATIONAL STANDARDS

The operation of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the standards set forth herein and the approved documents specified in Condition B.1. Where any discrepancy exists, the terms of this Approval shall prevail.

1. Hours of Operation

Hours of operation for receiving, storing, processing or transferring source separated recyclable material as specified in Condition A.1 of this Approval shall be limited to 7:30 a.m. to 4:00 p.m., Monday through Friday and 7:30 a.m. to 12:00 p.m. on Saturday.

2. Residue

Residue defined as solid waste, shall be transported by a NJDEP registered transporter for disposal pursuant to the applicable district solid waste management plan.

Residue shall be stored separately from recyclable material in containers and in a manner which prevents run-off, leakage or seepage from the residue storage area into, on or around the soil of the residue storage area.

No residue shall be stored on site for a period exceeding six (6) months without prior approval of the NJDEP.

3. Maximum Daily Capacity

The facility may receive no more than 1440 tons per day of recyclable materials consisting of 400 tons per day of wood material, 40 tons per day of leaves, and 1000 tons per day of concrete, asphalt, brick, block, and porcelain combined as specified in Condition A.1 of this Approval.

4. Maximum Weekly Capacity

The facility may receive no more than 7,920 tons per week of Class B recyclable materials consisting of 2,200 tons per week of wood materials, 220 tons per week of leaves, and 5,500 tons per week of concrete, asphalt, brick, block, and porcelain combined as specified in Condition A.1 of this Approval.

5. Unprocessed Materials Storage

- a. The total amount of unprocessed wood material stored on site shall not exceed 258,000 cubic yards, and shall be stored only in the area depicted on the approved site plan as "Raw Wood".

If at any time, the amount of unprocessed wood material stored on site exceeds 258,000 cubic yards, the facility shall immediately cease receiving any unprocessed wood material until the amount of unprocessed wood material stored on site falls below 258,000 cubic yards.

- b. The total amount of unprocessed concrete, asphalt, brick, block, and porcelain combined, stored on site shall not exceed 74,000 cubic yards. However,

due to the presence of freshwater wetlands in the unprocessed aggregate storage area as shown on the approved site plan, the extent of the storage area shall be limited to the western half and shall be reduced to a maximum size of 300 feet in a north-south direction and 200 feet in an east-west direction. In addition, a minimum fifty (50) foot buffer zone between the newly established eastern boundary and the freshwater wetlands shall be maintained at all times.

If at any time, the amount of unprocessed concrete, asphalt, brick, block, and porcelain combined, stored on site exceeds 74,000 cubic yards, the facility shall immediately cease receiving any unprocessed concrete, asphalt, brick, block, and porcelain material until the amount of unprocessed concrete, asphalt, brick, block, and porcelain material stored on site falls below 74,000 cubic yards.

- c. The facility shall dedicate a separate area within the "Raw Wood" stockpile area for the storage of leaves. This area shall have a maximum capacity of 480 cubic yards, with a maximum height not to exceed 13 feet.

Unprocessed recyclable material shall not remain on site, in its unprocessed form, for more than one (1) year.

6. Processed Materials Storage

- a. The total amount of processed wood material stored on site shall not exceed 34,000 cubic yards, and shall be stored only in the area as designated for that purpose as indicated on the approved site plan as "Finished Wood".

If at any time, the amount of processed wood material stored on site exceeds 34,000 cubic yards, the facility shall immediately cease receiving wood material until the amount of processed wood material stored on site falls below 34,000 cubic yards.

- b. The total amount of processed concrete, asphalt, brick, block, and porcelain combined, stored on site shall not exceed 29,600 cubic yards, and shall be stored only in the area depicted on the approved site plan as "Finished Aggregate".

If at any time, the amount of processed concrete, asphalt, brick, block and porcelain combined, stored on site exceeds 29,600 cubic yards, the facility shall immediately cease receiving concrete, asphalt, brick, block, and porcelain stored on site falls below 29,600 cubic yards.

All processed material shall be stored separately from residues.

7. By-Products Storage

By-Products shall be stored in the container(s) or area(s) as depicted on the approved site plan and shall be removed off-site to the end markets as referenced in the approved documents.

8. Specific Conditions for the Acceptance of Leaves

- a. The facility shall be permitted to receive leaves at any time of the year.
- b. All leaves delivered to the facility for processing shall be removed from bags, boxes or similar containers used in its transport to the site. The discarded bags, boxes and similar containers shall be placed in a suitable refuse receptacle at the facility for its eventual removal off site for disposal at an approved solid waste disposal facility.
- c. The leaves shall be stockpiled in the area to be designated for unprocessed leaves within the "Raw Wood" stockpile, with a maximum height not to exceed 13 feet.
- d. All leaves accepted will be processed by a tub grinder within 24 hours of delivery to the site.
- e. The ratio of the mixture shall be one part leaves to ten parts wood material.

9. Horizontal and Vertical Controls

Horizontal and vertical control points for the unprocessed and processed materials stockpile areas shall be maintained on site. Horizontal limitation markers shall be maintained at the corners of the stockpile areas as depicted on the approved site plan. Vertical limitation markers shall be maintained at locations in close proximity of the stockpile areas and

shall clearly establish elevation heights of 30 feet above the existing grade for the unprocessed wood material stockpile area, 50 feet above the existing grade for the unprocessed concrete, asphalt, brick, block and porcelain stockpile area, 13 feet above the existing grade for the unprocessed leaves stockpile area, 20 feet above the existing grade for the processed wood material stockpile area, and 30 feet above the existing grade for the processed concrete, asphalt, brick, block, and porcelain stockpile area.

10. Commingling

The facility may receive, store, process or transfer source separated concrete, asphalt, brick, block, and porcelain separately or commingled with each other. The facility may receive, store, process or transfer source separated trees, tree parts, brush, stumps, and wood (unpainted and non-chemically treated) separately or commingled with each other. In addition, the facility may not receive, store, process or transfer source separated leaves commingled with any other material. Commingling of any other material not described above is prohibited.

11. Applicable Regulations

The operation and related activities of this recycling center shall be in conformance with all applicable federal, State, county, municipal and local statutes, rules and ordinances including but not limited to nuisance, noise, fire and safety codes.

12. Safety Procedures

The operation of the recycling center shall be in conformance with the Occupational Safety and Health Act (OSHA) regulations as contained in the General Industry Standards 29 CFR 1910. Construction activities shall be in conformance with the OSHA regulations as contained in the Construction Industry Standards 29 CFR 1926. A copy of the safety procedures shall be posted on site.

13. Housekeeping

Routine housekeeping and maintenance procedures shall be implemented within the recycling center interior to prevent the accumulation of litter, dust and debris, and to maintain general cleanliness in the working environment.

14. Odor Control

The operation of this recycling center shall not cause any air contaminant, including an air contaminant detectable by the sense of smell, to be present in the outdoor atmosphere in such quantity and duration which is, or tends to be, injurious to human health or welfare, animal or plant life or property, except for malodorous emissions emanating from the recycling center which result in odors in areas over which the owner and/or operator has exclusive use or occupancy.

15. Vector Control

The recycling center shall institute and maintain an effective vector control program at the center, directed by a qualified applicator of pesticides as set forth in the New Jersey Pesticide Control Code N.J.A.C. 7:30.

16. Fire Protection and Emergency Response

Fire fighting and emergency procedures shall be posted, and shall include the telephone number of local fire, police, ambulance and hospital facilities.

If a fire occurs on-site, the facility shall immediately notify the local fire official and within 24 hours report the incident to the DEP Hotline at 1-877-WARNDEP.

17. Entrance Sign

A legible sign shall be posted and maintained at the entrance to the recycling center and indicate the hours of operation of the recycling center as well as the following information:

- a. A listing of the approved recyclable materials as specified in Condition A.1 of this Approval.
- b. The size, weight or other restrictions regarding materials to be received.
- c. A notice that all vehicles delivering materials to the recycling center will be inspected, and if found to contain contaminants greater than 1% by volume, will be rejected.

- d. A notice that all vehicles delivering materials to the recycling center shall complete and certify a materials receipt form.

18. Soil Tracking Control

Mud, soils or other materials shall not be tracked onto any public roads by any exiting vehicles. Effective measures shall be implemented to comply with this condition.

19. Site Access

Ingress and egress of the facility shall be restricted to New Jersey State Highway Route 47 only.

20. Hazardous Waste

Any suspected or prohibited hazardous waste, as defined at N.J.A.C. 7:26G-5, found in a load accepted at the facility shall not be returned to the generator. Such materials shall be segregated and stored in a secure manner and shall be immediately reported to the N.J.D.E.P. Environmental Action Hotline at 1-877-WARNDEP. The owner/operator shall secure the name of the collector/hauler suspected of delivering such waste to the facility and related information surrounding the incident, if available, and shall make this information known to the Department's enforcement personnel.

21. Air Pollution Control Permits

All processing equipment shall be operated in a manner which is in compliance with any air pollution control permits issued pursuant to N.J.A.C. 7:27-8 and 7:27-22.

22. Dust Control

Dust shall be controlled by the spraying of water, the spreading of calcium chloride or equivalent means as approved by this Division.

23. Noise Control

Noise controls shall be implemented so that noise levels generated at the recycling operation shall not exceed the standards set forth by New Jersey Noise Control Regulations under N.J.A.C. 7:29-1.2.

24. Documents On-Site

A copy of the approved documents as referenced in Condition B.1 and a copy of this Approval shall be maintained at the facility and shall be made available for inspection by Department personnel or its designated representatives.

25. End-Markets

All end-markets to which recyclable materials are transported from the recycling center shall remain consistent with those end-markets specified in the approved documents. Any modification in the actual end-market for a recyclable material specified in Condition A.1 shall be in conformance with N.J.A.C. 7:26A-3.10(f).

26. Right of Entry

The New Jersey Department of Environmental Protection shall have the right to enter and inspect, without prior notice, any building or other portion of the recycling center, or any other location of the company or its affiliated companies at any time.

This right to inspect includes, but not limited to, the right to engage in the following activities:

- a. Sample any materials on site;
- b. Photographing or videotaping any portion of the recycling center;
- c. Investigating an actual or suspected source of pollution of the environment;
- d. Ascertaining compliance or non-compliance with the statutes, rules or regulations of the NJDEP, including conditions of the recycling center approval issued by the NJDEP; or
- e. Reviewing and copying all applicable records, which shall be made available to the NJDEP during an inspection and submitted to the NJDEP upon request.

D. RECORDKEEPING AND REPORTING

1. Recordkeeping

In accordance with N.J.A.C. 7:26A-3.17, the facility shall maintain daily records of all materials received, stored, processed or transferred at the site. Said records shall be available at all times for inspection and shall indicate, at a minimum, the following:

- a. A daily record of the amounts of each recyclable material by type and municipality of origin which are received, stored, processed or transferred at the site. Those operators specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.
- b. The name, address, and telephone number of the end-markets for all recyclable materials transported from the recycling center, including the amount, in tons or cubic yards, transported to each end-market. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. NJDEP reserves the right to verify all end-market information submitted by the facility.
- c. The amount of residue disposed of, expressed in tons or cubic yards, including the name and the New Jersey Department of Environmental Protection solid waste registration number of the solid waste collector/hauler contracted to provide the haulage/disposal service. Those persons specifying the amount of residue in cubic yards shall also indicate the conversion ratio of residue from cubic yards to tons.

The facility shall retain the information for three (3) calendar years following the calendar year for which reporting is required.

2. Reporting

a. Annual Report

In accordance with N.J.A.C. 7:26A-3.17, the facility shall submit an annual report containing monthly summary statements of the information required pursuant to Condition D.1 above to the New Jersey Department of Environmental Protection on or before February 1 of each year, for the

previous calendar year. The summaries shall include monthly totals of the amount of recyclable product transferred to each end-market. The summaries shall also include the amount of residue disposed of during each month. An annual fee will be paid to the Department on May 1, in accordance with N.J.A.C. 7:26A-2.1(b)1;

b. Residue Disposal

The facility shall certify in writing that all residue generated at the recycling center has been disposed of in accordance with the solid waste management rules at N.J.A.C. 7:26. The certification shall be submitted annually as part of the annual report;

c. Tonnage Report

The facility shall provide a recycling tonnage report by February 1 of each year to all municipalities from which recyclable material was received in the previous calendar year. The report shall detail the amount of each source separated recyclable material, expressed in tons or cubic yards, brought to the recycling center. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.

One original and one copy of the annual report and tonnage report shall be submitted to:

New Jersey Department of Environmental Protection
Division of Solid and Hazardous Waste
Chief, Bureau of Recycling and Planning
P.O. Box 414
Trenton, New Jersey 08625-0414

Failure to comply with any or all conditions of this Approval will result in the NJDEP seeking relief under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq. Specifically, each day of failure to so comply shall constitute a separate violation on the basis of which a penalty shall be assessed pursuant to N.J.S.A. 13:1E-9 and may subject the facility to regulation as a solid waste facility pursuant to N.J.S.A. 13:1E-1 et seq. and N.J.A.C. 7:26-1 et seq.

The issuance of this Approval and the conditions of operation identified herein shall not be interpreted as relieving the applicant of his responsibility to secure and maintain all other applicable federal, State and local permits or similar forms of authorization

relating to the construction and operation of this facility.

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Ms. Audrey Winzinger
Robert T. Winzinger, Inc.
1704 Marne Highway
Hainesport, New Jersey 08036

RE: General Class B Recycling Center Renewal
Robert T. Winzinger, Inc.
Franklin Township, Gloucester County
Facility No. 0805001290

Dear Ms. Winzinger:

Enclosed is a recycling center renewal for the operation of the above referenced facility. Please note that this Approval is valid for a period of five (5) years, subject to the requirements of N.J.A.C. 7:26A-3.12. In addition, some conditions have been added and/or updated in this Approval which were not present in your original approval. These are conditions B.1, C.2, C.14, C.16 and C.20.

Conditions have been incorporated within this Approval that must be complied with in order for it to remain valid. The Department will consider amendment or modification of the specific terms of the condition of this Approval if a written request is submitted by certified mail within twenty (20) days of receipt of this Approval. Said written request must clearly state the proposed amendment or modification, and the factual basis for the request. This approval is non-transferable, except as set forth in N.J.A.C. 7:26A-3.15.

If you have any further questions regarding this matter, you may contact James Pagano, of my staff, at (609) 984-6650 or by e-mail at JPAGANO@dep.state.nj.us.

Sincerely,

Thomas Sherman
Assistant Director
Office of Permitting &
Technical Programs
